Custom kits to fit your needs!

Environmentally Friendly Products

BRO-TEX 100 YEARS

Made with Recycled Materials

Rhino Rags Microfiber not only uses less water and fewer chemicals than cotton rags, but the gray color is made with **recycled bottles**. 70% recycled content. Excellent for cleaning glass and mirrors.

Scrim nylon reinforced wipes contain **100% recycled paper**. These multi-layered wipers do not leave lint residue so they are perfect for cleaning glass yet strong enough for heavy grease and oil.

We offer a wide variety of **standard restroom towel and tissue** that are made from recycled paper to meet EPA guidelines.

Reclaimed rags are inexpensive and provide a tough, versatile wiping cloth. We offer a variety of recycled materials in fleece, flannel, huck and knit sheeting.

DRC is a popular general-purpose wiper because it is soft yet tough and highly absorbent like a woven cloth. Our popular white 31000 series wipers are made with 50–55% recycled fibers. The tan 43000 and blue 44000 series wipes have 60–65% post-consumer waste and recycled fiber content to meet the EPA Procurement Guidelines, which may help qualify for **LEED certification**.

Reduce Usage Products

Microfiber mops, towels, Right Rags in a dispenser box, and the innovative MicroSpun towels require less water and fewer chemicals. They are more absorbent than cotton and the fibers grab dirt better. Approved for use by the US Green Building Council. Dust and clean better and faster.

We offer a compressed rag box for our top sellers which reduces cardboard usage and shipping dimensions.

Solution Wipes allow you to create-your-own wet wiping system. The closed bucket makes cleaning safer by reducing spills from open buckets and VOC's. Just add your own sanitizer, disinfectant or other cleaner to one of our dry wipe options. The bucket can be reused with the same chemical solution.

Sorbents to Clean Up Leaks and Spills

Manage spills and leaks with sorbents and spill kits in key locations in your trucks and facility. We can customize kits to fit your needs.

Ask about our Eco-friendly pads and rolls with 100% Recycled Content.
